```java
 1  package et.miruts;
 2
 3  public class Main {
 4
 5      public static void main(String[] args) {
 6          printTriangle2(10);
 7      }
 8
 9      public static void printTriangle2(int length) {
10          for (int i = 0; i < length; i++) {
11              int j = 2*i +1;
12              int spaces = (2*length+1-j)/2;
13              for (int k = 1; k <= spaces; k++){
14                  System.out.print(" ");
15              }
16              for( int l = 1; l <= j; l++){
17                  System.out.print("*");
18              }
19              System.out.println();
20          }
21      }
22  }
23
24
```
